Bite-Sized News:

By Whitney Hawke

- On Saturday May 23rd, local psych rockers [5-Track & Glass Goblins](#) will be performing at Where in Silver Lake. The event reportedly "signifies an ongoing cooperative effort between local musicians and local businesses to help each other out by building a sense of street-level community." Where has created a comfortable space for local musicians and artists to mingle and cut a rug, and this event aims to strengthen those ties to perpetuate the badassness of our local music scene.
